

Sunbeam Sizzling Grill

INSTRUCTION/RECIPE BOOKLET

Sunbeam's Safety Precautions.

SAFETY PRECAUTIONS FOR YOUR SIZZLING GRILL.

- Use well away from walls and curtains.
- Do not immerse the control probe in water or any other liquid.
- Do not use the control probe in any other appliance.
- For indoor use, adequate ventilation or an exhaust fan is recommended.
- Always use this appliance under a sheltered roof when cooking outdoors.
- Do not leave plastic utensils in contact with appliance while cooking.
- Only use appliance fully assembled with all parts correctly in place, as specified in this instruction book.

SAFETY PRECAUTIONS FOR ALL ELECTRICAL APPLIANCES

Sunbeam are very safety conscious when designing and manufacturing consumer products, but it is essential that the product user also exercise care when using an electrical appliance. Listed below are precautions which are essential for the safe use of an electrical appliance:

- Read carefully and save all the instructions provided with an appliance.
- Always turn the power off at the power outlet before you remove a plug. Remove by grasping the plug - do not pull on the cord.
- Turn the power off and remove the plug when the appliance is not in use and before cleaning.
- Do not use your appliance with an extension cord unless this cord has been checked and tested by your electricity supplier or qualified technician.
- Always use your appliance from a power outlet of the voltage (A.C. only) marked on the underside of the appliance.
- Close supervision is necessary when your appliance is being used near children or infirm persons.
- Never leave an appliance unattended while in use.
- Young children or infirm persons should be supervised to ensure that they do not play with the appliance.
- Do not use an appliance for any purpose other than its intended use.
- Do not place an appliance on or near a hot gas flame, electric element or in a heated oven. Do not place on top of any other appliance.
- Do not let the power cord of an appliance hang over the edge of a table or bench top or touch any hot surface.
- Do not immerse in water.
- For safety reasons and to avoid maintenance by unskilled persons, some appliances are 'sealed' using tamperproof means as specified by S.A.A. (Standards Association of Australia). Such appliances should always be returned to the nearest Sunbeam Service Centre or appointed Service Agent for adjustment or repair if required.
- Do not operate any electrical appliance with a damaged cord or after the appliance has been dropped or damaged in any manner; If damage is suspected, return the appliance to the nearest Sunbeam Appliance Service Centre for examination, repair or adjustment. As a service to Customers, Sunbeam Appliance Service Centres will carry out a free check on your appliance to ensure it is electrically safe.
- For additional protection Sunbeam recommend the use of a residual current device (RCD) with a tripping current not exceeding 30mA in the electrical circuit supplying the power outlet in use.

If you have any concerns regarding the performance and use of your appliance, please ring our Toll Free number (Australia only) 1800 025 059. New Zealand - contact the Sunbeam Office in Auckland on 09 912 0747.

Ensure the above safety precautions are understood.

An introduction to your Sizzling Grill.

Congratulations on the purchase of your Sunbeam Sizzling Grill. You can now enjoy delicious, healthy barbecued meals in minutes.

Stylish and versatile, the Sunbeam Sizzling Grill is lightweight and easy to use. Perfect indoors for cooking quick family meals, or outdoors when entertaining.

The Sizzling Grill is smaller than conventional electric BBQs, providing greater portability and storage convenience. It is ideal for those who want the delicious taste of barbecued meals, with the convenience of a compact grill.

Take time to read through this book and you will soon discover how quick and convenient barbecuing can be!

How to use your Sunbeam Sizzling Grill.

Before first use.

Wash the hotplate and drip tray in warm soapy water using a mild household detergent. Dry hotplate and drip tray thoroughly.

Place drip tray into base. For easy cleaning line the drip tray with aluminium foil. This will collect the fats and juices.

Position the hotplate over base and drip tray, as shown in Figure 1.

For better non-stick performance, "season" the cooking surface of the hotplate by applying a thin coat of cooking oil and rubbing in with paper towelling before each use.

WARNING: Charcoal or similar combustible fuels must not be used with this appliance.

Using your Sizzling Grill.

1. Insert the Heat Control Probe fully into the socket of the hotplate.
2. Plug the cord into a 230-240 volt power outlet and turn the power on.
3. Set the Heat Control Probe dial to the desired heat setting, or the heat setting recommended in the recipe. When the thermostat light on the control probe switches off, the desired cooking temperature has been reached and the Sizzling Grill is ready to use.

Note: The thermostat light on the Heat Control Probe indicates the Sizzling Grill is heating. This light will remain ON until the set temperature has been reached and then will cycle ON and OFF throughout cooking. This will ensure that the Sizzling Grill always maintains the selected temperature.

The pre-heat time will depend on the heat setting selected. If a high heat setting is selected, a longer pre-heat time is required.

Handy Hints.

- Tender cuts of meat such as scotch fillet and sirloin are ideal for grilling. Tougher cuts of meat such as topside or blade steak will tenderise if marinated for a few hours or overnight.
- Avoid turning food regularly. Once the food has been seared on both sides, cook food at a reduced heat setting. This prevents the food from drying out and will cook your food more evenly. Avoid overcooking meat as the texture will toughen.
- The ribbed hotplate is ideal for cooking a variety of meats, including beef, fish and poultry. The drainage hole allow the fats and juices to drain into the drip tray for healthy fat free cooking.
- The variable heat control has a wide range of heat settings ideal for specific cooking tasks. The table below lists suggested heat settings.
- Always use a high temperature, heat resistant plastic cooking implement or wooden utensil with your Sizzling Grill to lift or turn foods.

Setting	Function
1 - 4	Low heat settings - keep warm
5 - 8	Medium heat settings - to cook food thoroughly
9 - 12 + Super Sear	High heat settings - searing

Note:

The Sizzling Grill will reach the cooking temperature in 8 minutes on the maximum heat setting (Super Sear). The hotplate is then ready for cooking. The indicator light will turn on and off during use of the grill as the thermostat maintains the cooking temperature.

Note:

When barbecuing on high heat settings, the Sizzling Grill will generate smoke. Selecting a lower heat setting will reduce smoke. For indoor use, adequate ventilation is recommended.

Care and Cleaning.

IMPORTANT: Do not use metal utensils as these will scratch the non-stick cooking surface.

Do not leave plastic utensils in contact with hotplate while cooking.

Before cleaning, turn the power OFF then **REMOVE** the plug from the power outlet and the Heat Control Probe from the socket of the Sizzling Grill.

Heat Control Probe.

If cleaning is necessary, wipe over with a damp cloth.

Do not immerse the control probe in water or any other liquid.

NEVER use the Sizzling Grill Heat Control Probe in any other Sunbeam appliance.

Storage

Store the probe carefully in a safe place. Do not knock or drop it as this can damage the probe. If damage is suspected, return the control probe to your nearest Sunbeam Service Centre for inspection. Refer to the back of your instruction book for Service Centre listings.

Splatter Guard.

Wash the splatter guard in warm soapy water using a mild household detergent and soft washing sponge.

We do not recommend the splatter guard is cleaned in the dishwasher.

Grillplate and Drip Tray.

The element in the hotplate is totally sealed, so it is safe to fully immerse in water. Wash the hotplate and drip tray in warm soapy water using a mild household detergent and a soft washing sponge.

A bottle brush may be used to clean the drainage hole in the ribbed hotplate.

The hotplate and drip tray are also dishwasher safe.

Do not use abrasives or metal scourers as they will scratch the non-stick cooking surface. Dry the hot plate and drip tray thoroughly before storing.

Moulded Base.

The base can be wiped over with a damp cloth or washed in warm soapy water using a mild household detergent and a soft washing sponge.

Do not use abrasives or metal scourers as they may scratch the base.

The moulded base is also dishwasher safe.

Storage.

Always dry and assemble the Sizzling Grill before storing. Ensure the drip tray and hotplate are correctly positioned.

Store the assembled Sizzling Grill on a flat surface on your benchtop or cupboard.

Important:

Before inserting Heat Control Probe in probe socket ensure the interior of the socket is fully dry. To do this wipe interior of socket with a dry cloth or shake out excess water vigorously.
